RECORDED FOR: Chief, C/APS
Management Officer
Assistant Director, DC
Assistant Director, CIA

15 SEP 1960

FROM: Assistant Director, CIA

TO: SUBJECT: Organization of CIA for the Production of Psychological Warfare Intelligence

1. CIA has recently completed a plan for the production of intelligence for Psychological warfare needed by the Joint Chiefs of Staff and the Department of State (pursuant to directive contained in R-256 and NSC 5911). These agencies hold CIA accountable for the production of intelligence to fulfill this plan.

2. CIA has recommended certain organization realignments in CIA to enable this office to meet these commitments for the production of psychological intelligence. These recommendations have not met with the positive response necessary for CIA to fulfill its production responsibilities. It is therefore necessary to find some means of enabling CIA to meet the commitment for the production of psychological intelligence or of relieving it of this responsibility which it cannot fulfill. CIA can be enabled to meet its responsibilities by implementation of certain organizational proposals, some of which have already been made, or by the creation of a completely new Psychological Intelligence Division with competence and authority to do all the work necessary to see that the production plan is carried out.

3. In view of the situation described above it would be appreciated if you or a representative would attend a meeting in Room 2505, "W" Building at 1000 hours, Wednesday, 20 September 1960 to discuss this matter.
